REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. The examiner considered the Applicant's Amendment and Terminal Disclaimer filed on 11-01-04, and after updated search, no prior art of record has taught that which was taught by the amended claims.
3. The prior art of record, Miller, teaches a system where queries are generated at a user interface and passed to multiple databases which provide the requested information back to the requestor, this system allowing the requestor to automatically access the correct information source upon further request. Miller, however, does not teach the access to the information sources being in parallel so that access to the second and third information items is not dependent upon return of one of the second and third information items in order to access the other of the second and third information items.
4. The prior art of record does not teach or fairly suggest the combination as presented by independent claim.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
